	Chapter 5 - Practice Set
1	Write a program to print the following pattern
	* * * *
	* * *
	* *
	*
2	Write a program to sum first n even numbers
-	Write a program to sum first n even numbers using while loop.
3	Write a program to print multiplication table of a given number n
	a given number n.
4	Write a program to print multiplication table of
	Write a program to print multiplication table of 10 in severse order.
	Write a program to find factorial of a given number using for bops.
5	Write a program to find factorital of a given
	number using for 100ps.
-6	Repeat 5 using while box
1	Repeat 1 using for /while loop
1	
8	What can be done using one type of loop
8	can also be done using the other two types
	What can be done using one type of loop can also be done using the other two types of loops - True or False.
9	Write a program to calculate the sum of the numbers occurring in the multiplication table of
"	numbers occurring in the multiplication table of
	8.

• • •	
10	A do while loop is executed:
	2 > At least twice 3 > At most once
	THE THIS VIWE
11	Repeat 2 using for loop.
